HOW TO USE INDEX

Articles are listed alphabetically by title and numbered consecutively. Below are cross-indexes which facilitate the finding of an article either by subject or author.

Example: Economy, National 3, 15, 18, 37, 48, 53
Referring back to these numbers in the title index provides the title, page and month for each article on the national economy. Thus No. 3 yields the information: "America's Need: Social Services and Jobs" (Labor's Economic Review), Page 1, August issue.
